- **World-Wide Web (WWW) Server**

- **ftp Services**

- **Prognostication**

MODARCH Status
Software Upgrade

- **Current EFS Version is 3.5**
  - No impact on UNIX users
  - DOS and Mac Client Users must upgrade software

- **Multi-Page Printing is Here!!!**
  - "Helper" utilities for PC and Mac available
  - Allows printing complete document or page range
  - Does **not** speed up Postscript printing

- **UNIX Print Services remain available**
  - Contact MODARCH support to set up

MODARCH Status
Hardware Upgrades

- **CPU Upgrade**
  - SUN SparcStation 10
  - Solaris 2.3 / SunOS 5.3 (System V)
  - 128 MB memory (was 16 MB)
  - Faster searches
  - Increased memory eliminates memory paging to disk

- **Disk Capacity Upgrade**
  - Added 2 x 9 GB disk drives
  - Total Disk Capacity now exceeds 20 GB
  - Disk space will be shared by several services
