

MODLAND SUMMARY AND ISSUES

1. Better tutorial/explanation of QA/QC flags on MODLAND DAAC
2. Collection 6 reprocessing scheduled, Sept 2012
3. Next MODIS Science Team meeting scheduled with final verification of Coll 6 algorithm readiness.
4. Importance of cross-checking with other sensors for calibration and degradation analysis. Easier ESA data availability?
5. 5TH Montana Global Vegetation Mtg?
6. NEX analytical opportunities-- NCA!
7. Global annual Landsat based change...REDD+
8. VIIRS algorithm readiness...EOS Continuity???
